### Accent Guide

Below are the popular accents used in all Premier League nameblocks. To ensure the correct use for a particular name follow the below example letters.

- Pre-heat fabric before applying names and numbers to stabilise fabric.
- Follow the positioning guidelines as shown on the diagrams.
- Carefully cover/protect the names and numbers with Teflon® sheet or greaseproof/silicon paper.
- Follow the temperature, time, pressure and peeling instructions.

### Application Settings:-

Temperature: 145°C/293°F  
 Time: 12-15 seconds  
 Pressure: Firm/4 Bar  
 Peel: Cool  
 Cover with Teflon sheet

Brand styles and sponsor positions differ therefore this information should be reviewed in individual circumstances to achieve the best position. Player Printing does not recommend applying official Premier League names, numbers or sleeve badges over garment seams, other raised or branded areas.
